Verification is here

Partner and affiliate servers get a verified badge.

To prevent multiple servers sharing or name or users creating servers pretending to be someone they are not we have added 2 verification marks. These marks show if a server is either:

- Affiliated with us. Such as our own server.

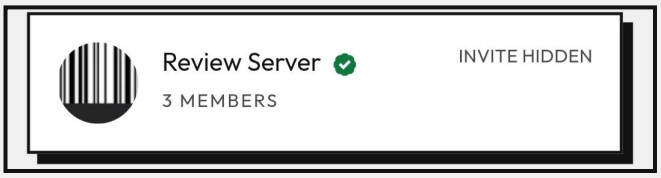

Or

- We have talked to the owners and confirmed the server is real and not impersonating a larger server with the same name.

Verification marks look like this:

Partner Mark

Affiliated Mark

We hope this will alleviate any confusion!
